Remarks:

*Regarding the amendments to the claims:*

In this paper, the applicant amends claim 11 which are believed to fully address, and overcome the objections to the claim raised due to "indefiniteness".

The Examiner noted that claims 1, 4-6, and 12-16 are already in condition for allowance.

In the *Office Action* the Examiner noted that non-elected claims 2-3, and 7-10 are in condition for allowance once claim 11 has been suitably amended. As claim 11 as presently amended is believed to be in condition for allowance, in this paper the applicant has rewritten the status indicators of claims 2-3, and 7-10 by omitting the "withdrawn" status of these claims, indicating that they are returned to prosecution, and are presumably also now allowable as rejoined claims. The status identifiers of the claims presented in this paper are believed to be proper according to 37 C.F.R. § 1.121(c).

Should the Examiner in charge of this application believe that communication with the undersigned will favorably advance the prosecution of this application, they are invited to contact the undersigned at their convenience.

CONDITIONAL AUTHORIZATION FOR FEES

Should any further fee be required by the Commissioner in order to permit the timely entry of this paper, the Commissioner is authorized to charge any such fee to Deposit Account No. 14-1263.

Respectfully Submitted;
